Vinyl 1/16" recessed screw

Astragal Part # 276

This weather strip is designed to fill the space between the meeting stiles of double doors.

1. Measure the height of the door and cut the piece of astragal to equal the height.
2. Fasten the astragal to the face of the door with the screws furnished. The housing should be flush with the edge of the doors as illustrated above.

3. Operate the door several times to ensure the gasketing material is adjusted properly so as not to inhibit the door from self-closing and latching.

Positive Pressure Tested Gasketing Materials for Fire Doors. Intended for Application to/with listed steel frames and/or classified steel covered composite, hollow metal type fire doors rated up to 3 hours, wood and plastic covered composite type fire doors rated up to 1-1/2 hours, and wood core type fire doors rated up to 20 minutes.
